This dog has been certified Pomsky breed with a percentage of 32.4% Pomeranian and 67.6% Siberian Husky by an EMBARK DNA test http://embk.me/lovelypettina

Important Notice

In case of transfer of the dog, the pedigree must be given free of charge to the new owner.
The transmission of the pedigree to the new owner is considered by the EPC as transfer of ownership of the dog; The terms of this transfer do not fall within the purview of the EPC.
To avoid any dispute of ownership, the new owner must send the pedigree to the EPC for registration in his name. In the case of an export, it must be declared by the seller or donor.
The registration fee must be paid only by means of the transfer form attached to the invoice.
These formalities do not exempt the owner from his obligations vis-à-vis the EPC.

In case of loss of the pedigree, a duplicate will be issued in the name of the registered owner only.

When the dog dies, the pedigree must be sent to the EPC to register the death. On request the pedigree will be returned to the owner.
